Dear Parents and Carers,

We have put together an example weekly timetable to support you in structuring your home learning. Our assembly times are shown on the timetable and we would also recommend that you plan in your child's zoom session with their class teacher. As always, please do not feel under any pressure to follow this timetable; we hope that it will support you in creating a structured routine that meets the needs of your family. We have also included some learning platform links below that are suitable for your children. We understand that everyone's experience during lockdown will be different and recognise that as parents you are having to balance work, parenting, schooling and the emotional well-being of your family. Be kind to yourself! Thank you for your continued support.

The Hiltingbury Team
