Starting school is an exciting time with lots of new things to think about! Tick one thing off your list with the help of this booklet and plan your child's journey to school.

Why choose active?

Walking, wheeling, scooting and cycling are active ways to travel to school. Whether it is for the whole or part of the journey, choosing active travel has lots of benefits!

Reduces congestion	Safer journey with fewer cars	Saves money	Reduces air pollution
Healthy for body and mind	Quality time with family and friends	Improves concentration	Become more street savvy

Need to drive?

If you have no choice but to drive, we ask that you do so in a safe and considerate way that protects our local community and is respectful to neighbouring residents.

Park and Stride, driving for part of your journey, parking away from school and actively travelling the remaining 5-10 minutes, is a great option if you need to use the car. You get to enjoy the benefits of active travel within your busy schedule!

Think zigzags

Unlike adults, children cannot see over parked cars. Likewise, drivers may not be able to see children trying to cross the road. The yellow zigzags help to keep the road clear creating a safer area for children to cross. It is important not to park or wait on the yellow zigzags at any time.

Essential journey information

[For information: 360 characters per box, please delete this message]

**School gate(s)
opening times**

**Location of
entrances**

**Cycle/scooter
storage**

**If you need
to drive to
school...**

**The rules:
entering staff/
onsite car
parks**

**Scooter/cycle/
pedestrian
training**
