**Bike It John would love to help you start your very own Bike Bus at Hiltingbury Infant and Junior Schools.**

**A Bike Bus is an organised community-led group ride on a set route with designated locations for families to join safely along the way. The Bike Bus provides opportunities for young children to be more active, improve their cycling skills, socialise with their peers, have fun and arrive at school refreshed and ready to start the day.**

**To get one going at Hiltingbury we need to some willing parents to ride with their children, as well as being ride marshals as part of the school community team to keep them running regularly.**

**But fear not! Bike It John is here to help with route planning, risk assessing, communication, resources, training, and a dedicated Bike Bus support network. If you are unable to speak to me then please do email me to learn more [john.clode@walkwheelcycletrust.org.uk](mailto:john.clode@walkwheelcycletrust.org.uk)**
