

How to access Seesaw at home

1. Go to <http://seesaw.me> on a computer or install the Seesaw Class App on an IOS or Android device.
2. Students tap “I’m a Student”.
3. Students scan their code using Seesaw’s built-in QR code reader or type in their text code to access their Seesaw account.

Once logged on, your child will be presented with the home screen, similar to the one below:

Any homework that is set by teachers will be found in the “Activities” section found on the right hand side. Once the “Activities” button is selected, your child will be able to choose from tasks that appear down the left hand side of the screen, as below:

All activities should be accompanied by a set of instructions. To complete these tasks your child should press the “Add response” button and when they have completed the task they must click the green tick in the top right corner. The task will then be sent to their class teacher for approval and will appear in your child’s journal when it has been approved.
